

## **ChargePoint Statement on the WEEE Directive 2012/19/EU and Battery Directive 2006/66/EC**

Electrical and electronic equipment (EEE) and batteries contain materials, components and substances that may be hazardous and present a risk to human health and the environment when waste electrical and electronic equipment (WEEE) and batteries are not handled correctly.

Electrical and electronic equipment and batteries are marked with the crossed-out wheelite bin symbol indicating that electrical and electronic equipment and batteries should not be disposed of in the regular household waste stream, but need to be collected separately. In case batteries contain more than 0,0005% mercury (Hg), 0,002% cadmium (Cd) or 0,004% lead (Pb) (by weight), the corresponding chemical symbol is displayed on the battery.

Users need to follow local recycling regulations to reduce adverse environmental impact in connection with disposal of WEEE and batteries and to increase opportunities for reuse, recycling, and recovery of WEEE and batteries. To facilitate this, free collection points are available in your area. Users are responsible for removing personal data from electronic devices prior to disposal. If possible please remove old batteries or accumulators from the electronic device before you return it for recycling.

WEEE\*:

Batteries:

\*The bar below the bin indicates that a product was made after the 13<sup>th</sup> of August 2005.

### **ChargePoint Product Take-Back Statement**

Please see below for country-specific recycling options for products that are end of life. If local disposal options are not listed, please contact ChargePoint at [chargepoint.recycling@accerio.com](mailto:chargepoint.recycling@accerio.com). ChargePoint will work with you to arrange for the environmentally sound treatment of the product.

### **ChargePoint Recycling Information by Country**

Austria

ChargePoint is registered as a WEEE and battery producer with the Umweltbundesamt. ChargePoint fulfills its recycling obligations through membership of the WEEE and battery producer compliance scheme ERA Austria, and the packaging producer compliance scheme ARA.

Household and Professional WEEE: Umweltbundesamt 9008391854845

Portable batteries: Umweltbundesamt 9008391854845

Packaging: ARA 23481

Information on the return and collection options for WEEE in Austria is available at:

[https://secure.umweltbundesamt.at/eras/registerabfrageEAGSammelstelleSearch.do?wfjs\\_enabled=true](https://secure.umweltbundesamt.at/eras/registerabfrageEAGSammelstelleSearch.do?wfjs_enabled=true)

Information on the return and collection options for batteries in Austria is available at:

<https://secure.umweltbundesamt.at/eras/registerabfrageBATsammelstellenSearch.do>

Information on the return and collection options for packaging in Austria is available at:

<https://uebernahmestellen.ara.at/>

## Belgium

ChargePoint is registered as a Household WEEE producer. ChargePoint fulfills its recycling obligations through membership of the WEEE producer compliance scheme Recupel.

Household WEEE: Recupel 946313

Information on the return and collection options for WEEE in Belgium is available at:

<https://www.recupel.be/en/find-a-collection-point/>

Information on the return and collection options for batteries in Belgium is available at:

<https://www.bebat.be/en/find-a-collection-point>

## Denmark

ChargePoint is registered as a WEEE producer with the Dansk Producentansvar (DPA). ChargePoint fulfills its recycling obligations through membership of the WEEE producer compliance scheme ERP Denmark APS.

Information on the return and collection options for WEEE in Denmark is available at:

<https://selfservice.dpa-system.dk/public/search?tab=collection-sites>

"Elektrisk og elektronisk udstyr samt medfølgende batterier indeholder materialer, komponenter og stoffer, der kan være skadelige for menneskers sundhed og for miljøet, hvis affaldet ikke håndteres korrekt. Elektrisk og elektronisk udstyr og batterier er mærket med nedenstående overkrydsede skraldespand. Den symboliserer, at elektrisk og elektronisk udstyr og batterier ikke må bortskaffes sammen med usorteret husholdningsaffald, men skal indsamles særskilt. Nogle batterier er også mærket med den kemiske betegnelse Hg (kviksølv), Cd (cadmium) eller Pb (bly). Dette er særligt skadelige stoffer og det er derfor specielt vigtigt, at disse batterier bliver indsamlet. (Denne er kun nødvendig, hvis batteriet indeholder de pågældende stoffer)

Som slutbruger er det vigtigt, at du afleverer dine udtjente batterier til de ordninger, der er etableret. På denne måde er du med til at sikre, at batterierne genanvendes i overensstemmelse med lovgivningen og ikke unødigt belaster miljøet.

Alle kommuner har etableret indsamlingsordninger, hvor kasseret elektrisk og elektronisk udstyr samt

bærbare batterier gratis kan afleveres af borgerne på genbrugsstationer og andre indsamlingssteder eller bliver afhentet direkte fra husholdningerne. Nærmere information kan fås hos kommunens tekniske forvaltning."

## France

ChargePoint is registered as a WEEE and battery producer with the Ademe (Syderep). ChargePoint fulfills its recycling obligations through membership of the WEEE producer compliance scheme Ecologic for Household EEE, the WEEE producer compliance scheme Ecosystem for Professional WEEE, and the battery producer compliance scheme Screlec.

Household and Professional WEEE IDU: FR025247\_05XSJK

Portable batteries IDU: FR025247\_06C0SV

Information on the return and collection options for WEEE in France is available at:

<https://quefairedemesdechets.fr/>

Information on the return and collection options for batteries in France is available at:

<https://www.batribox.fr/points-de-collecte/>

## Germany

ChargePoint is registered as a WEEE and battery producer with the Stiftung EAR and a packaging producer with Zentrale Stelle Verpackungsregister. ChargePoint fulfills its recycling obligations through offering product take-back for professional products and through membership of the battery producer compliance scheme GRS Batterien, and the packaging producer compliance scheme Landbell. Household WEEE and batteries can be returned at collection points.

Household and Professional WEEE: Stiftung EAR DE 47349127

Portable Batteries: Stiftung EAR DE 52810993

Packaging: Zentrale Stelle Verpackungsregister DE2377223507373

Information on the return and collection options for Household WEEE in Germany is available at:

<https://entsorgungsstellen.e-schrott-entsorgen.org/> and <https://www.ear-system.de/ear-verzeichnis/sammel-und-ruecknahmestellen#no-back>

Information on the return and collection options for batteries in Germany is available at:

<http://www.grs-batterien.de/verbraucher/mitmachen.html> and <https://www.stiftung-ear.de/de/startseite>

## Ireland

ChargePoint is registered as a WEEE producer with the Irish EPA and as a WEEE and battery producer with The Producer Register Ltd (WRS-Blackbox). ChargePoint fulfills its recycling obligations by offering

product take-back for professional products and through membership of the Household WEEE and battery producer compliance scheme WEEE Ireland.

Household and Professional WEEE: PRL Registration Number IE 3041WB

Information on the return and collection options for Household WEEE and batteries in Ireland is available at: <https://www.weeeireland.ie/household-recycling/where-can-i-recycle/>

## Italy

ChargePoint is registered as a WEEE producer with the Ministero dell'Ambiente (Registro A.E.E.) and a battery producer with the Ministero dell'Ambiente (Registro Pile e Accumulatori). ChargePoint fulfills its recycling obligations through membership of the WEEE and battery producer compliance scheme ERP Italy.

Household and Professional WEEE: IT19050000011376

Portable Batteries: IT19050P00005346

Information on the return and collection options for WEEE in Italy is available at: <https://www.cdcaee.it/centri-di-raccolta-comunali/>

Information on the return and collection options for batteries in Italy is available at: <https://www.raccogliamopiupile.it/>

## Luxembourg

ChargePoint is registered a battery producer with the EMWELT. ChargePoint fulfills its recycling obligations through offering product take-back for professional products and through membership of the battery producer compliance scheme Ecobatterien.

Portable Batteries: B19/00028

Information on the return and collection options for batteries in Luxembourg is available at: <https://www.ecobatterien.lu/en/professional/what-to-do-with-used-batteries-and-accumulators>

## Netherlands

ChargePoint is registered as a WEEE producer with the Stichting OPEN. ChargePoint fulfills its recycling obligations through membership of the WEEE producer compliance scheme Stichting OPEN and the battery producer compliance scheme STIBAT.

Household and Professional WEEE: No registration number issued

Portable Batteries: STIBAT 40860

Information on the return and collection options for WEEE in the Netherlands is available at:  
<https://www.wecycle.nl/inleverpunt-zoeken>

Information on the return and collection options for batteries in the Netherlands is available at:  
<https://www.legebatterijen.nl/inleveren/waar-inleveren/>

#### Norway

ChargePoint is registered as a WEEE producer with the EE Registeret. ChargePoint fulfills its recycling obligations through membership of the WEEE producer compliance scheme ERP Norge AS.

Professional and Household WEEE: NL.956714392B01

Information on the return and collection options for WEEE in Norway is available at: <https://erp-recycling.org/no-no/> or <https://sortere.no/slikgjordude>

#### Spain

ChargePoint is registered as a WEEE producer with the Registro de Aparatos Electricos y Electrónicos and as a battery producer with the Registro de Pilas y Acumuladores. ChargePoint fulfills its recycling obligations through membership of the WEEE and battery producer compliance scheme Recyclia.

Household and Professional WEEE: Número RII-AEE 6681- RD. 110/2015

Portable Batteries: Nº REI-RPA 1756- RD. 710/2015

Information on the return and collection options for WEEE in Spain is available at: <https://punto-limpio.info/>

Information on the return and collection options for batteries in Spain is available at:  
[http://www.ofipilas.es/recogida-ciudadano\\_A.aspx](http://www.ofipilas.es/recogida-ciudadano_A.aspx)

#### Sweden

ChargePoint is registered as a WEEE producer with the Naturvårdsverket. ChargePoint fulfills its recycling obligations through membership of the WEEE producer compliance scheme Recipo.

Household and Professional WEEE: Naturvårdsverket 4463

Information on the return and collection options for WEEE in Sweden is available at:  
<https://www.sopor.nu/sortera-%C3%A5tervinn/elavfall/> and municipal locations here  
<https://skr.se/tjanster/kommunerlandsting/kommunerlista.1246.html>

Information on the return and collection options for batteries in Sweden is available at:  
<https://sopor.nu/sortera-%C3%A5tervinn/elavfall/batterier/>

United Kingdom

ChargePoint is registered as a WEEE and battery producer with the UK Environment Agency. ChargePoint fulfills its recycling obligations through offering product take-back for products and through membership of the WEEE producer compliance scheme Accerio.

Household and Professional WEEE: WEE/MM4348AA/PRO

Portable Batteries: BPRN06934

Information on the return and collection options for WEEE in the United Kingdom is available at:  
<https://www.recyclenow.com/>
