# Safe, Reliable Installations with the ChargePoint Installer App
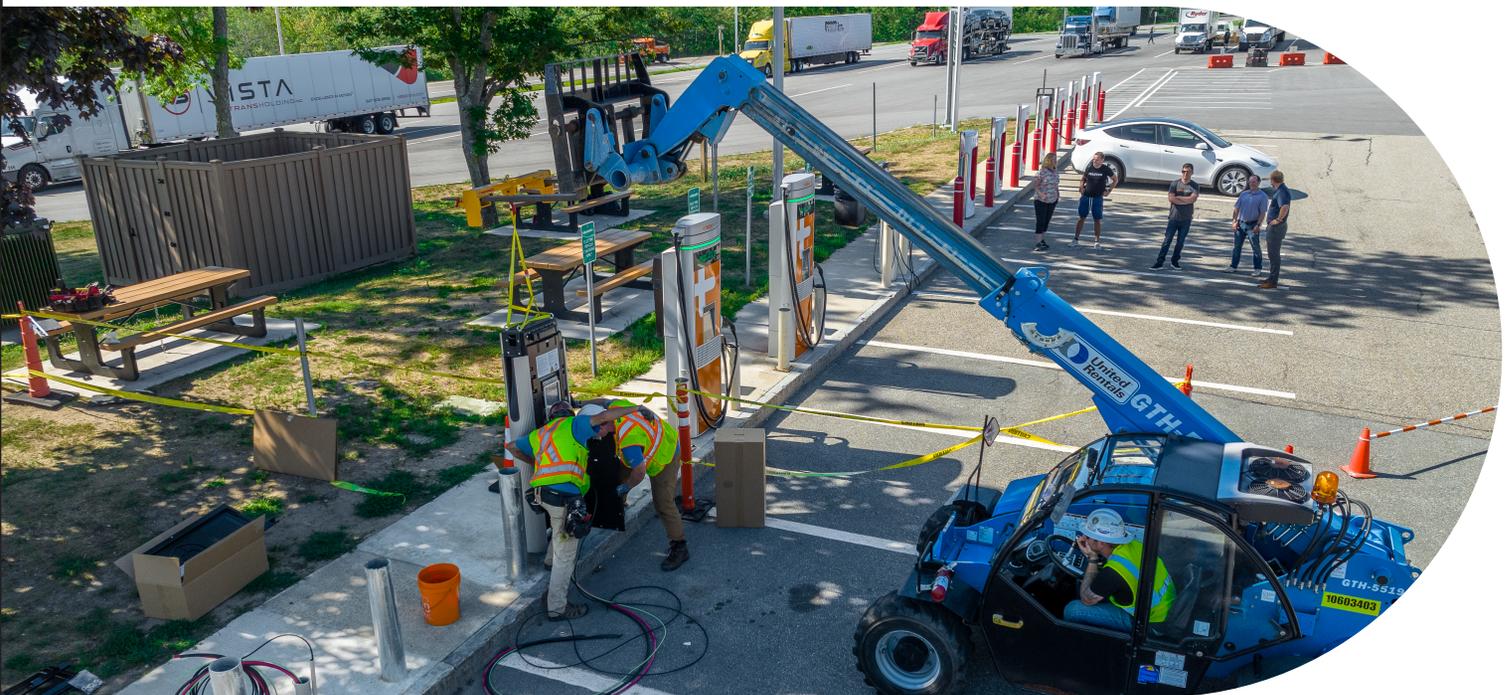

Quickly and safely install the most popular ChargePoint stations with the ChargePoint® Installer app. Save time with personalized guidance designed for ChargePoint-certified technicians like you. The app streamlines installation and communication, helping you make customers happy with a safe and reliable setup.

Streamline setup:
Use one app to install our most popular stations, including Home Flex, CP6000, and Express Plus.

Time savings:
Seamlessly connect to Bluetooth-enabled stations to configure all settings—including installation type, circuit details, and breaker rating—directly from the Installer App.

Improve Communication:
Connect directly with customers to send important updates during the installation process via integrated SMS and email.
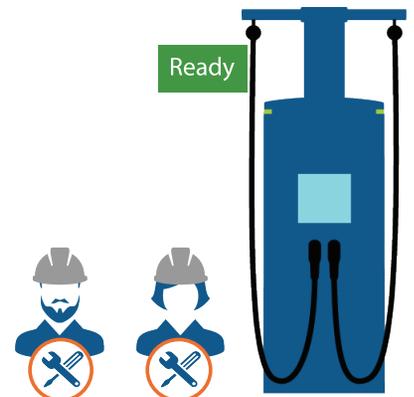

What's new

- **Service and replace stations:** You can now view and clear station faults, and seamlessly trigger station replacements and upgrades right from the app.
- **Shared credentials:** Use one set of shared credentials for both the Installer App and the ChargePoint training and certification platform.
- **Confidence and Support:** Operate with confidence by accessing station documentation and support features directly in the app.
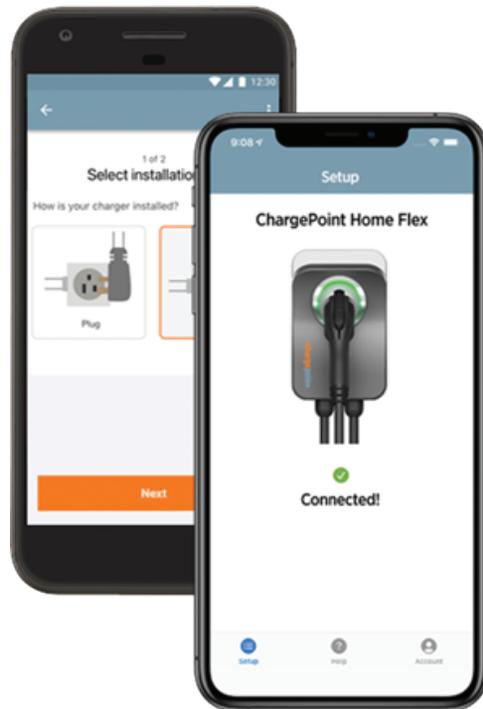

Let's get started

We're always here to help you identify your charging goals, advise on the best approach and help evaluate your site.
