New and Improved Dashboard Insights for Optimal Charging Operations

The ChargePoint® Platform features a modern, intuitive dashboard designed to help you maintain your investment and meet your goals with EV charging. With smarter navigation and a customizable layout, the new user interface makes it easier than ever to monitor your charging operations and take quick action, ultimately improving your efficiency, maximizing station utilization, and increasing uptime.

Customized views:
Build your own dashboard with a new and growing widget library that streamlines your daily workflow.

Improved visibility:
A modernized user interface provides you with a comprehensive view of your entire charging operation, ensuring you have the information you need to make fast, effective decisions.

More reliability:
With real-time data and smarter navigation, you can proactively identify and address issues, increasing uptime and ensuring a reliable charging experience.

Simplify Station Management
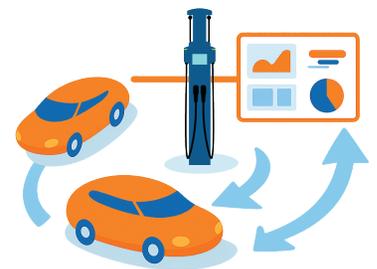

What does it look like?

A new, modern UI and smarter navigation provide a more intuitive and visually appealing experience.
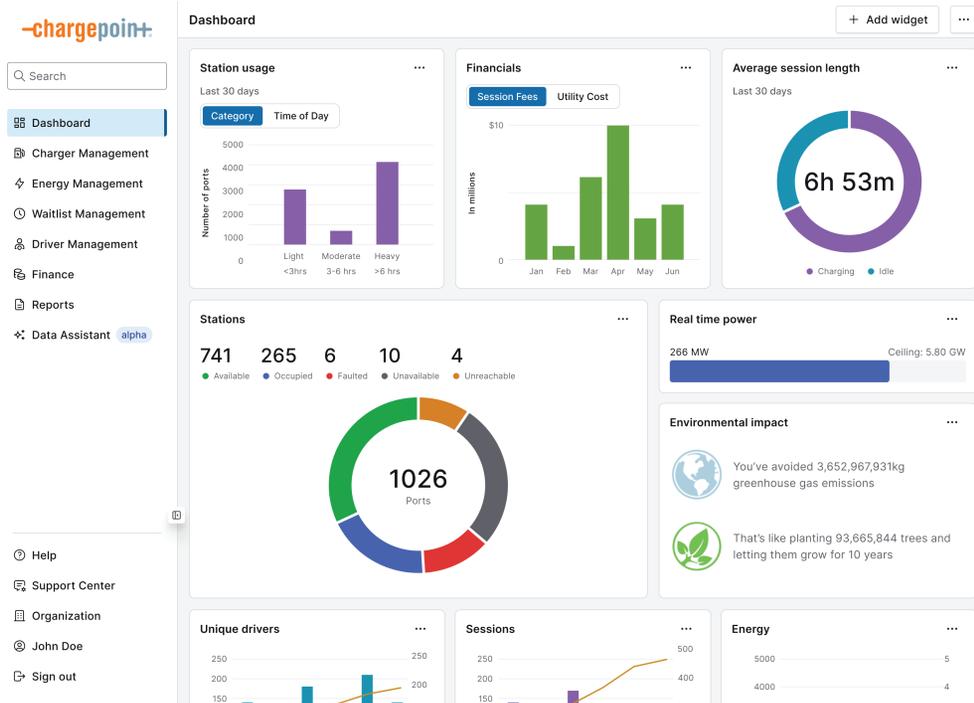

Let's get started

We're always here to help you identify your charging goals, advise on the best approach and help evaluate your site.
