Community Survey: EV Charging

Please complete the questionnaire below to help us evaluate resident interest in adding EV charging to the property.

Questions:

1. Does anyone in your household currently own an electric vehicle (EV) that needs to be plugged in to charge?
    a. Yes
    b. No *(Skip to 3)*

2. How likely is it that you would charge your EV at the property if charging stations were available?
    a. Very likely
    b. Somewhat likely
    c. Somewhat unlikely
    d. Not likely

3. How likely are you to purchase/lease an EV in the next 6-12 months?
    a. Very likely
    b. Somewhat likely
    c. Somewhat unlikely
    d. Not likely

4. How important is EV charging access in your decision to purchase/lease an EV?
    a. Very important
    b. Somewhat important
    c. Somewhat unimportant
    d. Not important at all

5. When deciding on a place to live, how important is having access to EV charging?
    a. Very important
    b. Somewhat important
    c. Somewhat unimportant
    d. Not important

6. Which of the following phrases best describes the environmental impact of your home purchase decisions?
    a. I pay more for sustainable choices when available
    b. I'd like to pay for sustainable choices, but I don't know if I can afford it
    c. I do not pay more for sustainable choices if there are other options

7. Please rank common amenities in order of importance when you're considering where to live:
    1. EV charging stations _____
    2. Controlled access garage _____
    3. Bicycle storage _____
    4. Bicycle repair maintenance _____
    5. Package delivery _____
    6. Rideshare (Uber/Lyft) waiting area _____
    7. Concierge _____
    8. Transit access _____
    9. Pool _____
    10. Gym/weight room _____

8. Would an EV charging station on the property make a difference for you?
    a. Yes
    b. No
    c. Tell us why or why not:

9. When you see EV chargers at other properties, what are your opinions of those properties? Circle the choice that best describes your thinking in each row.

Low-end	Somewhat low-end	Neutral	Somewhat high-end	High-end
Very affordable	Somewhat affordable	Neutral	Somewhat expensive	Expensive
Not a fit for me	Probably not a fit for me	Neutral	Somewhat a fit for me	A great fit for me

10. How likely would you be to renew your lease if EV chargers were available?
    a. Very likely
    b. Somewhat likely
    c. Somewhat unlikely
    d. Not likely at all

11. How willing would you be to pay more in rent/HOA fees for installation and maintenance of EV chargers?
    a. Very willing
    b. Somewhat willing
    c. Somewhat unwilling
    d. Not willing at all

        i. If **Somewhat** or **Very willing**: How much **per month** would you consider reasonable for access to EV charging at your property?
            1. $1-25
            2. $26-50
            3. $51-100
            4. $101+

12. Is there anything else you'd like us to know regarding EV charging at the property?
    a. Comments:
