End of Life Notice

ChargePoint PL1000 Overhead

Certain configurations of the ChargePoint Express Plus, namely the PL1000 Overhead, are transitioning into our End of Life (EOL) protocol.

Please note that this does not mean we will stop supporting these products at this time, and that this has no impact on their functionality. For complete details on our End of Life (EOL) milestones and timelines, please refer to the official EOL Policy page.

Independently of the above, we recognize that this process can impact our customers and partners, and we are here to support you. Please read the information provided below to understand this milestone and its potential implications for you.
