## End of Life Notice

### Legacy Service SKUs

Certain Service SKUs are beginning End of Life (EOL) protocol as we transition to our new charging management environment, the ChargePoint Platform.

Please note that this does not affect the fulfillment of active service entitlements but instead aligns our service SKU structure to match the new Cloud Plan SKU structure within the ChargePoint Platform. This will make it easier for customers to co-term their ChargePoint subscriptions across software and services. For complete details on our End of Life (EOL) milestones and timelines, please refer to the official [EOL Policy page](#).

Independently of the above, we recognise that this process can impact our customers and partners, and we are here to support you. Please read the information provided below to understand this milestone and its potential implications for you.

### EoL (End of Life) Milestones

## Successor Products

### Existing Service Subscriptions

This does not affect the fulfillment of active service entitlements. At the end of the subscription term, it will be renewed using the new version of that service's SKU.

Explore [chargepoint.com](https://chargepoint.com) or contact your ChargePoint representative to find your perfect solution.

### New Service Subscriptions

For new sales, Service SKUs going through the EOL protocol will be replaced with newly designed Service subscription SKUs that match the new Cloud Plan structure.

Explore [chargepoint.com](https://chargepoint.com) or contact your ChargePoint representative to find your perfect solution.
