

Fleet Charging Solutions

Reduce Fuel Costs and Simplify
Electric Vehicle (EV) Fleet Operations

ChargePoint, the world's largest and most open EV charging network, simplifies EV charging for your fleet. We make it easy and hassle-free to deploy EV charging, operate your fleet and save money.

Simplify Your Operations with Smart, Networked Charging Stations

Our smart, networked charging stations are designed to make your operations easy to manage. You can get real-time charging station information and generate detailed reports on energy use, greenhouse gas emissions avoided, fuel savings and more, all from a single dashboard. We also continuously deliver automatic, over-the-air software updates, so you never have to wait for the latest features and improvements.

Maximize Cost Savings with Power Management

Our advanced power management tools can lower your total cost of ownership. With smart, networked charging stations, you can reduce installation costs and remotely shift charging to times when electricity rates are the cheapest.

Keep Your Operations Running Smoothly with ChargePoint's World-Class Support and Services

Vehicle availability is critical to your business, which is why we offer comprehensive support. Our world-class support team is standing by to help your drivers and station managers. We also have your stations covered with ChargePoint® Assure, our industry-leading parts and on-site labor maintenance program.

Fueling Solutions for Every Charging Application

Wherever your vehicles need to charge, ChargePoint can tailor a fleet solution to meet your fueling needs.

Depot Charging

ChargePoint offers a variety of AC Level 2 and DC charging stations to meet a variety of depot applications. Stations are available in wall and pedestal mount options. Custom mounting options are also available.

Benefits

- + Know which vehicles are charged and ready for service through real-time updates
- + Ensure that only authorized vehicles can use your depot charging stations through Access Control
- + Power Management reduces installation and electricity costs
- + Lower energy costs through Scheduled Charging
- + Avoid trip hazards and keep your operations safe with our cable management option
- + The first ENERGY STAR® certified EV chargers: CPF25 and CT4000 are 40% more efficient in standby mode than the standard EV charger.

Mixed Use Charging

Many ChargePoint stations are designed to accommodate mixed use applications, where stations can be efficiently shared with non-fleet vehicles. Mixed use charging makes it easy to share infrastructure costs across multiple charging applications.

Benefits

- + Get all the benefits of our depot solution, including power management, advanced analytics and cable management
- + Allow personal vehicles to charge during weekdays and reserve stations for fleet use on nights and weekends through Time of Use Access Control
- + Manage station usage by allowing employees to get in line and be notified when it's their turn to charge with Waitlist
- + Set different prices for fleet vehicles, employee personal vehicles and the public, while ChargePoint handles all collections and funds transfers for you with Flex Billing

Home Charging

ChargePoint offers home charging stations for drivers who take their fleet vehicles home at the end of the day. Whether they charge in a single-family home or in a multi-family apartment or condo, energy costs can be billed to the fleet.

Benefits

- + Reimburse drivers for home energy costs and generate detailed reports
- + Lower energy costs by shifting charging to times when electricity rates are lowest
- + Manage and view usage reports for all charging sessions—home, depot and mixed use—from a single dashboard

On Route Charging

Whether you choose to deploy depot or mixed use charging stations, your fleet vehicles may need to charge on route. The ChargePoint Fleet Card gives you a convenient way to pay for charging at public ChargePoint stations.

Benefits

- + Account for all charging purchases made by your fleet vehicles and generate detailed reports
- + Negotiate deals with other station owners for discounted charging or exclusive access for your fleet vehicles

Charge Your EV Fleet Everywhere
